Local Weatherman Believes Disks to Be Bureau Devices

Weatherman L. J. Guthrie, of the Roswell bureau of the United Mates weather service, today was disposed to agree with army offi-

Pictured above are Jason Estlahin and R. A. Adair, of the Associated Press bureau in Albu-querque, as they sent out the first AP wirephotos ever to be dispatched from Roswell.

Dispatch of pictures of W. W. Brazel, who discovered a purported flying disk on the Poster ranch, northwest of Roswell, was made on the instruments shown in the picture. The instruments were set up in The Record office lest night, and the pictures seem myitation to a Paris conference

Romania Rejects Bid to Take Part In Economic Meet

Ramey Says **Excitement Is** Not Justified

General Ramey Says Disk Is Weather Balloon

Tehran, July 9, @-The fiving ancer fever spread to Iran

Press reports from Shooef and Sarbinheh near the Afghan frontier said residents there had observed strange "starlike bodies" in the sky strange which exploded loudly, leaving a cloud of smoke.

The newspaper Mehrl Iran are newspaper Mehri Iran and the objects apparently had something to do with a secret weapon, which it dubbed "V-26."

Fort Worth, Texas., July 9 (47)--An examination by the army re-vealed last night that mysterious objects found on a lonely New Mexico ranch was a harmless high-altitude weather balloon— not a grounded flying disk.

Excitement was high until Brig. Gen. Roger M. Ramey, commander of the Eighth air forces with headquarters here cleared up the mystery.

The bundle of tinfoil, broken wood beams and rubber remnants of a balloon were sent here yesterday by army air transport in the wake of reports that it was a flying disk.

But the general said the ob-jects were the crushed remains of a ray wind target used to de-termine the direction and velocity of winds at high altitudes.

Warrant Officer Irving Newton,

forecaster at the army air forces forecaster at the army air forces weather station here, said, "we use them because they go much higher than the eye can see."

The weather balloon was found several days ago near the center of New Mexico by Rancher W. W.

Brazel. He said he didn't think much about it until he went into Chroma, N. M., last Saturday and

contons—a 44 1/2 cent basic hourly wage increase, an eight instead of a nine-hour work-day. and a 10-cent instead of a nickel a ton levy for the UMW welfare fund—the contract points a load-ed gun right at the Southern scoup.

This is the next-to-last clause which provides that every signer agrees to meet in a national conference before the contract ex-pires next June 30.

Thus, any Southern operator who signs obligates himself to collaborate with the rest of the industry in next year's bargaining; instead of holding aloof as the Bouthern association has done since its split with Northern op-

erators last December.

If the Southerners fail to participate in such a meeting the clause implies, they will find themselves faced with this year's situation all over again—in other words, invited to sign a "nationcontract which they had no

part in negotiating.

Decorated Veteran Records Discharge

Col. Fred G. Rowell, 102 South Kentucky, holder of the Italian Cross for Military Valor, the Legion of Merit award and Silver star, yesterday added his name to the discharge roater at the office of County Clerk George Miller.

Rowell was discharged at The Pentagon, Washington, D. C. Dec. 30, 1946. He entered the ser vice in this city, Dec. 23, 1940. He served as a commander of a tank destroyer unit, intelligence staff officer and intelligence security officer in Tunisia, Rome-Arno. North Appenines and Po valley Other awards received are, Bronze star, European - African-Middle Eastern ribbons with four bronze stars, American Defense, and American Campaign ribbons and the Victory medal.

MALESTOLDUCINOS COMPTECENCE. MIRE TETEVAL OF States lend-lease before fall might be necessary to save Britain from unproductive poverty.

"We cannot indefinitely go on importing what we cannot pay Deputy Prime Minister Herfor. bert Morrison said last night in house of commons economic de-bate. To bring buying down to ability to pay, he declared, Britain would have to cut imports 25 per cent and make "great adjust-ments" in production and standard of living.
"The only remedy x x x," he

said. "lies in devising some means whereby billions of dollars worth of North and South American production could be transferred across the Atlantic without the necessity for immediate payment in the form of an equal and op-posite flow of European goods."

Observers noted the similarity between this proposal and war-

time lend-lease.

Of London's morning only the ruling labor party's Daily Herald refrained from criticizing government economic policy. The Communist Daily Worker said the policy "appears to be to drift un-til the Americans come over with

a form of lend-lease. Britain now is running into debt at the rate of 450,000,000 pounds -about \$1,800,000,000-yearly to pay for food for her people, still on thin rations, and raw materials for her industry, slowly re-cuperating from the war. If she keeps on drawing at the current rate on her \$3,750,000,000 U. S. credit, it will be gone by the end

W. W. Brazel, 48, Lincoln county finding what the army at first described as a flying disk, but the publicity which attended his find caused him to add that if he ever found anything else short of a bomb he sure wasn't going to say anything about it.

Brazel was brought here late yesterday by W. E. Whitmore, of radio station KGFL, had his picture taken and gave an interview to the Record and Jason Kellahin, sent here from the Albuquerque bureau of the Associated Press to cover the story. The picture he posed for was sent out over AP telephoto wire sending machine specially set up in the Record office by R. D. Adair, AP wire chief sent here from Albuquerque for the sole purpose of getting out his picture and that of sheriff George Wilcox, to whom Brazel originally gave the information of ists find.

Brazel related that on June 14 he and an 8-year old son. Vernon were about 7 or 8 miles from the and went to be ranch house of the J. B. Poster reconstruct it. ranch, which he operates, when

they came upon a large bright wreckage made up ber strips, tinfoil, a rath paper and sticks. At the time Brazel w

The weather service has been dabbling with radar controlled balloons and similar devices for some time. Guthrie said, and from descriptions of the instrument found by Brazel he said that it coincides with what he has learned about the experiments.

Guthrie said that the weather bureau has used balloons of several styles to measure wind velocities in the upper stretches, and that some of them had been designed in triangular shape, with a radar target disk attached. These instruments were sometimes covered with tinfoil, he said. By radar, bureau observers could "shoot" the balloon targets, therefore measuring distance the in-struments travel in upper air cur-rents, and their rate of speed.

Guthrie said that a great deal of meteorological equipment and supplies had been given to the weather service by the army, after the close of the war, and that among the equipment was some of the radar triangles, and other radar controlled devices. All army weather observation material is serial marked, he said, and easily identified.

The weatherman said that these radar controlled instruments are the White storms.

afterward The fact that the instruments (Continued to Page Four) also put into use to detect thunder-

Telephone and Telegraph facil- came last night. ities direct to Denver, where the Roswell circuit joined a national hookup for picture transmission. Therefore, the Brazel picture was available in every newspaper of-fice in the United States where wirephoto receiving instruments are maintained.

Reed Hatch, of the local tele-phone company, had special telephone equipment installed in The Record office for the operation.

Hatch was ordered by his company headquarters earlier in the day to clear such circuits as were required for the operation, and was also told to put on extra operators if the demand warranted.

Adair said that seven minutes were required to send the Brazel

Adair and Kellahin were ordered to Roswell for the special asignment by the headquarters bureau of AP in New York.

In Moscow, meanwhile, the Soviet press made no mention today of the conference, which will open in Paris Saturday.

Associated Press Correspondent Larry Alien reported from Warsaw that Poland's foreign office probably would deliver late tonight notes to the British and French embassies, giving the Poles' de-cision on the invitation. He added there were indications that the Poles might accept with strong reservations."

In London, a British government spokesman said Foreign Secretary Ernest Bevin would attend the conference but would leave most of the work of organizing European economic cooperation to government experts.

Find Nude Body of Strangled Woman in New York Hotel

New York, July 9, (A) — The ide body of a tail, blonde nude body of a tall, blonde woman whose identity was not immediately learned was found today in a West 57th street street apartment, police said, with a bed sheet knotted about the throat and a blood-stained towel in the mouth,

A maid who discovered the body told police that the woman was known to her as Bessie K. Tru. Luggage bearing the initials "B. was found in the apart-

Police said the woman also was known as Shella Mannering to other residents of the apartment house and had used at least one other name.

Homicide investigators suid they found a cigar butt in a smoking stand within the apartcigar butt in a ment

The maid, Alura Rayfield, said she entered the apartment at 9 a. m. saw a light in the bathroom, found a radio playing, and then discovered the body, sprawled on the bedroom floor.

The body was face up between twin beds. Her features had been beaten and an ambulance doctor who examined the body said

she had been dead some time.

Deputy Chief Edward J. Mullins, in charge of West Side detectives, said one bed was not disturbed but that there were brownish stains on the spread of the other bed and that a sheet from it apparently had been used in the strangulation. 0.

about 8 inches thick. In all, he getting me to say unything about and as a member of the Dexter school board.

loon, which he had placed under

some brush.
Then Brazel hurried back to Roswell, where he reported his find

to the sheriff's office.

The sheriff called the Roswell air field and Maj. Jesse A. Marcel,

officer of the bomb group, reported the find to General Ramey and the object was flown immediately to the army air field here.

Ramey went on the air here last night to announce the New Mexico discovery was not a flying disk.

Newton said that when rigged up, the instrument "looks like a six-pointed star, is silvery in ap-pearance and rises in the air like a kite."

In Roswell, the discovery set off B flurry of excitement.

Sheriff George Wilcox's tele-phone lines were jammed. Three calls came from England, one of them from The London Daily Mail, he said.

A public relations officer here said the balloon was in his office "and it'll probably stay right there."

Newton, who made the examination, said some 80 weather sta-tions in the U.S. were using that type of balloon and that it could have come from any of them.

He said he had sent up identical balloons during the invasion of Okinawa to determine ballistics information for heavy guns.

shape like two inverted saucers, faced mouth to mouth, or like two old type washbowls placed to-gether in the same fashion. The entire body glowed as though light were showing through from inside, though not like it would be if a light were merely underneath.

From where he stood Wilmot said that the object looked to be about 5 feet in size, and making allowance for the distance it was from town he figured that it must have been 15 or 20 feet in diam-eter, though this was just a guess.

Wilmot said that he heard no sound but that Mrs. Wilmot said she heard a swishing sound for a very short time.

The object came into view from the southeast and disappeared over the treetops in the general vicinity of six-mile hill.

Wilmot, who is one of the most respected and reliable citizens in town, kept the story to himself hoping that someone else would come out and tell about having seen one, but finally today decided that he would go shead and tell about seeing it. The announcement that the RAAP was in possession of one came only a few minutes after he had decided to release the details of what he had seen.

Washington, July & A. agreement under which 150,000 of the nation's soft coal miners will work when "willing and able" at the highest wage in history was signed today.

Harry M. Moses, representing the steel companies, and Charles O'Neill, of the northern commercial operators, signed for their operations employing the 150,000

Other operators from the Mid-west and Far West, who employ west and Far West, who employ an additional 150,000 miners, were waiting their turn to put their signature to the pact, negotiated by Moses and O'Neill in days of dickering.

The ceremony was held in Lewis' offices at headquarters of his Uni-

ted Mine Workers.

Only the Southern group of operators, producers of about 25 per cent of the nation's coal, is left outside the ranks of those ready to meet Lewis' terms. Even they appeared willing to fall in line but

Air Force General Says Army Not Doing Experiments

Portland, Ore., July 8 (A)_The Oregonian said today that Maj. Gen. Nathan F. Twining, chief of Gen. Nathan F. Twining, chief of the AAF material command, told it flatly that the "flying saucers" are not the result of experiments

by the armed services.

Neither the AAF hor any other component of the armed forces had any plane, guided missle or other aerial device under development which could possibly be mistaken for a saucer or formation of flying discs," the newspaper quoted Twining as telling it by telephone from Kirtland Army Airbase, Albuquerque, N. M.

It continued its quotation: Some of these witnesses evidently saw something but we don't know what we are investigating.

Meanwhile, air National Guard aquadrons flying from Portland, Boise and Spokane bases patrolled Pacific Northwest akies late yes-terday, landing after sundown; without observing any of the ob-

Col. G. Robert Doddson, com-anding the 123rd and 116th manding the 123rd and squadrons, said oamera-equipped planes would take the air twice daily from the three fields.

Held for Threatening Father in Law's Life

Balli Loy is held in the county half until a hearing before Justice Harry Puryear on a charge of threatening the life of his father-in-law, Jim Eakin, and family. The charge was filed by the father-in-law. Peace bond has been set al \$800.

Most commercially, grown orchids take five or more years to grow from seed,

Lewis had told them to await the formal signing of the contract before going back to the pits.

Lewis offered the contract to the operators on a take-it-or-leave-it basis. Its terms were made public by the Northern negotiating committee with a statement declaring the agreement will make possible the quick return to full scale operations in the industry and the coal field

Industry" and the coal field.

It also will boost the co. of coal and "maily products dependent upon coal," the president said, but the operators are convinced that the full-scale production it permits "is the most effection." tive way to maintain the economy of the nation."

The contract, effective until

July 1, 1948, provides:

1. A 44 1 2 cent basic hourly wage increase - raising miners' pay to \$13.05 a day-far above 1947's second-round "pattern" of wage increases in other industries.

2. An eight-hour day, including portal-to-portal time, instead of a nine-hour day; also, a half-hour instead of 15 minutes for lunch.

of 5 cents, to support the miners' welfare fund. The fund will be governed by a three-man board of trustees made up of Exra Van Horn. Cleveland coal operator: UMW President Lewis; and neu-tral member to be chosen jointly.

4. Agreement that the contract covers the soft coal miners "during such time as such persons are willing and able to work." This immunizies the union from Taft-Hartley act penalties for work stoppages in violation of contract.

5. Withdrawal of no-strike clauses and penalties for illegal from all local and district con-

6. The union abandons-for the year-its old demand for recog-nation of foremen and supervisory employes.

Claims Army Is Stacking Courts Martial

Indiana Senator Lays Protest Before Patterson

Washington, July \$ AP Sen-ator Jenner (R-Ind.) contended foday that "the high command in the European theatre is stacking courts against defendants in court martial.

In a letter to Secretary of War Patterson demanding a full in-vestigation of army military trial procedure, Jenner offered what he said was documentary proof

1. "Prisoners are not being permitted to employ either civilian or military counsel of their own choice in the preparation and presentation of their defense."

2. "Every effort is being made."

in courts martial in the Euro-

The Indiana senator made pub-lic a copy of an informal "rout-ing slip" which he said was signed by Brig. Gen. Cornelius E. Ryan, assistant deputy, military government headquarters for the military government for Germany. and written by Col. Francis H. Venderwerker. Jenner told news-men that the routing alip substantiated his charges.

The slip, addressed to the chief of staff, USFET (presumably US forces, European theatre), was dated last Oct. 23.

and Thomas Lester Foley, California attorneys, to act as spe-cial defense counsel for five prisoners then awaiting trial by general court martial at Frankfurt AM Main.

Jenner identified Carroll as counsel in the court martial of Col. James A. Kilian in the Lich-field (England) prison brutality case.

Carroll, then an army captain. resigned as assistant prosecutor in the Lichfield trials after asserting that a deliberate attempt was being made by army legal authorities to whitewash higher officers in the case. Kilian was later convicted and fined. The routing slip said that Car-

roll had received widespread publicity "by violent attacks on the system of military funtice" and added "it is understood that Poley is an individual of similar pro-

Captures Flying Saucer anch in Roswell Region

Security Council Paves Way to Talks

United Nations security council today approved an American blueprint for arms reduction discussions despite a Russian warning that the plan would bring about a collapse of arms regulation efforts.

The vote was 9 to 0, with Russian and Poland abstaining.

In view of Russia's firm stand against the U. S. plan it had been believed she might mvolke the big power veto to block it.

Soviet Deputy Poleign Minister Andrei A. Gromyko ave his warning before the United Nations accurity council in a new effort to evive the Soviet working plan which already had been rejected by the commission for convention y the commission for convention-

His challenge was taken up romptly by French delegate Al-xandre Parodi and U. S. Repre-entative Herschel V. Johnson, ho announced their opposition to substitute for the American

Gromyko insisted that no pro-am for arms regulation could occeed unless the plan was linked rectly with an absolute prohibion of atomic weapons.

He declared that the U. S. plan proved by the commission did to think the problems of arms re-ction and the banning of atomic apons and, for this reason, it ered no basis for a solution.

Gromyko opened debate on the another major declaration from n later in the day in reply to ited States and British demands action to restore order in the lical Balkan situation.

romyko said the U. S. program to not a plan bu merely a docunt outlining a series of broad eralisations. The Soviet proals on the other had, he said.

Flying Disk On Arms Reductions Are Revealed

Roswell Hardware Man and Wife Report Disk Seen

The intelligence office of the 509th Bombardment group at Roswell Army Air Pield announced at noon today, that the field has come into possession of a flying Saucer.

According to information re-leased by the department, over authority of Maj. J. A. Marcel, intelligence officer, the disk was recovered on a ranch in the Ros-well vicinity after an unidentified well vicinity, after an unidentified rancher had notified Sheriff Geo. Wilcox, here, that he had found the instrument on his premises.

Major Marcel and a detail from his department went to the ranch and recovered the disk, it was stated.

After the intelligence office here had inspected the instrument it was flown to "higher headquarters.

The intelligence office stated that no details of the saucer's construction or its appearance had been revealed.

Mr. and Mrs. Dan Wilmot apparently were the only persons in Roswell who have seen what

They were sitting on their porch at 165 South Penn. last Wednesday night at about ten minutes before ten o'clock when a large slawing chiest scomed out. a large glowing object zoomed out of the sky from the southeast. going in a northwesterly direction at a high rate of speed. Wilmot called Mrs. Wilmot's

Se Reagan crede negli oroscopi, i suoi concorrenti non gli sono da meno

Casa Bianca, entrano in campo gli Ufe

Superstizione, streghe, extraterrestri: tutto serve in vista delle presidenziali americane. Il reverendo Jackson si è addirittura scusato, perché i suoi aiutanti non avevano opinioni pronte sul popolare tema degli invasori spazia.

NEW YORK (l.a.) — Una vena esoterica affiora nel declino della presidenza Reagan. L'eccltazione per la scoperta che il signore e la signora Reagan, nelle quiete ore del mattino, mentre prendono il caliè, leggono l'oroscopo per la giornata, circolava ancora nel paese, quando il presidente ha fatto un'altra incursione nel Possibile, chiamando in causa stavolta gli Ultraterrestri. «Spesso mi domando cosa succederebbe se tutti noi ci rendessimo conto di essere minacciati da un potere alieno, che viene dallo spazio, da un altro pianeta», ha detto infatti Reagan, nel mezzo di un discorso sull'Unione Sovietica. «Scopriremmo improvvisamente che non ci sono differenze tranoi, che siamo tutti esseri unnani, cittadini del mondo, e non ci uniremmo forse per combattere questa minaccia?».

In un paese în cui un film "Sody Snatchers", e trasmissioni come La Guerra dei Mondi sono pilastri culturali, în cui un americano su dieci è convinto di aver visto personalmente un Ufo, le divagazioni presidenziali non sono state affatto impopolari. «Uh-oh, mi sono detto, sta per caso sollevando una pietra sopra un branco di vermi?», è sobbalzato ad esempio Sherman Larsen direttore del Centro di Studi sugli Ufo, speculando sulle vere intenzioni del messaggio: «È un avvertimento altruistico o sa qualcosa? Non ci sono forse storie che sostengono che il presidente Truman una volta, mentre giocava al golf nel West abbia incontrato extraterrestri?».

Al «Mutual Ufo» in Texsas il direttore Walter Andreus si è un po' piccato del fatto che il presidente abbia descritto gli extraterrestri come una minaccia: «Non sono ostili. Attaccano solo per difendersi», ha precisato sulle

Consapevoli della importanza della questione sollevata tutti i portavoce dei candidati alle presidenziali hanno dato dei chiarimenti. Quelli di Dukakis permettevano di annunciarechi sono i loro uomini nello spazio; quelli di Sakson, scusandosi di non aver nulla pronto, dichiaravano che avrebbero immediatamente messo qualcuno al lavoro sul j blema; il portavoce di Bush ha detto in che «non ci sarà nessuna dichiarazione in rito».

Le battute si sono sprecate a Washing Qualcuno sosteneva che Dukakisha giào to una tregua agli invasori sulla falsarig: processo di pace di Contadora per l'Ame Centrale; che Jackson sta già facendo circ re una sua foto abbracciato a un extrate stre, e che Bush si è rifiutato di rispone «perché sono materie riservate fra me e il sidente». Molti sostenevano che l'autore discorso presidenziale era Larry Speake ex portavoce della Casa Bianca che ha rei temente confessato in un libro di memori aver inventato false dichiarazioni del pi dente per la stampa, per compensare la incapacità. I più saggi di Washington gua no invece già al futuro. Dopo l'astrologia spazio, qual è il prossimo passo? Crede I gan nei fantasmi? E che dire delle Stregh

«A caccia di Ufo, da scettico»

L deputato belga Di Rupo ha chiesto al Parlamento europeo di pronunciarsi sull'opportunità di istituire un Centro comunitario che si occupi di Ufo, ossia dei dischi volanti. La richiesta non deve stupire. Da qualche anno la zona attorno a Liegi è teatro di misteriosi avvistamenti in seguito ai quali è stata costituita in Belgio la Sobeps, una associazione che si dedica appunto allo studio degli «oggetti volanti non identificati» collaborando con l'aviazione militare belga.

La proposta di Di Rupo è stata giudicata meritevole di attenzione dagli organi competenti del Parlamento ed è arrivata alla Cert, la Commissione Energia, Ricerca e Tecnologia, di cui faccio parte. Essendo un fisico, sono stato incaricato di stendere un rapporto. Esprimo il mio scetticismo sulle storie che si raccontano sugli Ufo ma di fronte a una precisa richiesta a norma dell'articolo 63 del re-

golamento e alle pressanti richieste dei colleghi non ho potuto tirarmi indietro.

La stesura del rapporto risulta più divertente e varia del previsto. Pur non credendo agli omini verdi dei film di Spielberg, mi rendo conto che un rapporto non può basarsi soltanto sul mio scetticismo e deve contenere dati obiettivi. D'altra parte non posso condurre da solo una inchiesta su di un fenomeno così vasto che preoccupa da decenni l'opinione pubblica benché non mi manchi il tempo a disposizione poiché la Cert ha altre faccende più urgenti di cui occuparsi.

Ho incominciato con lo scrivere a tutte le forze aeree comunitarie chiedendo il loro parere sull'argomento. Ricevo una risposta cortesissima dalle Forze Aeree Italiane che mi spediscono un opuscoletto di pubblico dominio su cui dettagliano tutti gli avvistamenti di Ufo degli ultimi decenni. L'opu-

scolo contiene statistiche ma non risultati di inchieste. Il massimo di avvistamenti (32) si è verificato nel 1982 con preferenza per le regioni costiere.

Gli spagnoli mi rispondono che l'informazione richiesta è coperta dal segreto militare e che comunque i dati a loro disposizione sono troppo pochi e non presentano alcun interesse. La Germania Federale mi fa sapere che l'ufficio a cui mi sono rivolto non è competente ma non dice quale ufficio lo sia. Gli altri non rispondono.

Il mio consiglio al Parlamento europeo sarà di dare un ruolo europeo al Sepra, un istituto scientifico francese che studia i fenomeni di rientro nell'atmosfera di oggetti spaziali: una soluzione che risulta poco o per nulla onerosa. Per parte mia, non temo una invasione di alieni. Temo di più una invasione di ufologi.

specific points which tween 400 and 500 miles per hour should be dealt with, such as the regulation of war production, distribution of armed forces and military transport.

It is obviously," Gromyko added. "that the commission cannot work out a plan without linking it to atomic control."

This is directly contrary to the main principle of the U. S. plan, which provides that all atomic problems would be handled by the atomic energy commission and not by the commission for conventional armaments

an indication that he was preparing to invoke the big power vote to block council approval of the U S. plan Thus the threat of a veto hung over both the U.S. arms plan and a U.S. plan for stabilizing the disturbed Balkan situation

The big question was whether The Dig question was whether Gromyko would invoke the veto to block an American proposal to set up a U N. watch along

British Delegate Sir Alexander Cadogan aiready has declared that if the security council could not solve the Balkan problem, the United Nations might as "pack up" and disband U S representative Warren R. Austin was equally insistent that the council take some action-force if neces-

In view of their position, it appeared certain that a Soviet veto would provoke the worst crisis yet faced by the U N.

Controls Off on Most All Building

Controls were abolished on all construction except for amuse-ment and recreation facilities when President Truman signed the Wolcott bill into law on June according to Walter Harrison, of Kemp Lumber company.

Only on these two items is it now necessary to get governmental permission. Harrison said

On housing, commercial, and industrial construction otherwise all government controls are removed any anyone is free to pro-ceed immediately with any jobs he may contemplate, Har mid.

Harrison said removal of the restrictions will allow many persons to proceed with their plans or business buildings and homes which have been held up hereto-

> A. Most commercially, grown orchids take five or more years to grow from seed.

Lewis had told them to await the formal signing of the contract be-

fore soing back to the pits
Lewis offered the contract to operators on a take-it-orleave-it basis. Its terms were made public by the Northern negotiat-ing committee with a statement declaring the agreement will make possible the quick return to

full scale operations in the circle industry' and the coal field.

It also will boost the coal of coal and 'many products dependent upon coal,' the president the president said, but the operators are convinced that the full-scale produc-tion it permits "is the most effective way to maintain the economy of the nation"

effective until

The contract effective until July 1 1948 provides 1 A 44 1 2 cent basic hourly wage increase — raising miners' pay to \$13.05 a day-far above 1947's second-round 'pattern of wage increases in other industries

An eight-hour day including portal-to-portal time, instead of a nine-hour day, also, a half-hour instead of 15 minutes for lunch

3 A 10-cents-a-ton levy instead of 5 cents to support the miners' welfare fund. The fund will be governed by a three-man board of trustees made up of Esra Van Hem Cleveland coal operator, UMW President Lewis, and neutral member to be chosen jointly

Agreement that the contract covers the soft coal miners durs ing such time as such persons are willing and able to work. This immunizies the union from Taft-This Hartley act penalties for work stoppages in violation of contract

5 Withdrawal of no-strike clauses and penalties for illegal from all local and district contracts

6 The union abandons—for the year- its old demand for recognution of foremen and supervisory employes.

Pederal mine safety standards will apply in all affected mines, replacing a variety of state safety

conduct even more violent than those of Carroll"

The routing slip continued:

It is probable, in view of their past conducts, that Carroll and Foley will again use every device known to clever civilian criminal lawyers, to prolong trials un-necessarily and to introduce large masses of evidence, which are irrelevant to the issues in the trial. most seriously damaging to this command and the army. "It should be borne in mind that, if Carroll and Foley succeed in securing acquittals in all or some of these cases, it is probable that their services will be requested by other accused and they will seek to remain in the theatre indefnitely in the theatre u

initely practicing law "This would give Carroll and Foley a considerable advantage over other American lawyers, who are not permitted to come here to practice law, and would make them semi-permanent thorns in the side of this command and theatre,"

The communication ended with request for assignment of some

"alert and thoroughly competent lawyers" for the prosecution.

Jenner who served overseas as an air forces captain, said the army manual on courts martial specifically permits the accused to be represented by civilian attorneys, or by any army officer of his choice. When none is requestthe unit commanding officer assigns an officer to act as defense counsel.

Cotton Acreage Is Above 1947 Figure

Washington, July 8 (P)-The agriculture department reported today that the cotton acreage in culivation on July 1 totaled 21-289,000 acres, or 17.6 per cent more than last year.

This year's acreage compared with 18,190,000 in cultivation a year ago and with 24,817,000 acres for the ten-year July 1 acrease. The peak acreage was slightly than 44.000,000 acres in more 1929

The department's first forecast on production will be issued Aug

But the crop would be about 10,495,000 bales of 500 pounds gross weight if the acreage abandoned is equal to the ten-year average of 1.9 per cent and if the yield per acre is equal to the ten-year average of about 250 pounds.

The ten-year average acreage abandoned, last year's acreage in cultivation on July 1, and the acreage in cultivation on the same date this year, respectively, by states includes:

Ramey Says **Excitement Is** Not Justified

General Ramey Says Disk Is Weather Balloon

Tehron, July 9, 68-The flying saccer fever speedd to Jean today.

Press reports from Shouef and Sarbisheh near the Afghan frontier said residents there had observed strange "starlike bodien" in the sky which exploded loudly, leaving a cloud of smoke.

m coost of smoore. The newspaper Mehri Iran said the objects apparently had something to do with a secret weapon, which it dubbed "V-20."

Port Worth, Texas., July 9 (A)-An examination by the army revealed last night that mysterious objects found on a lonely New Mexico ranch was a harmless high-altitude weather balloon—not a grounded flying disk.

Excitement was high until Brig. Gen. Roger M. Ramey, commander of the Eighth air forces with headquarters here cleared up the mystery.

The bundle of tinfoil, broken wood beams and rubber remnants of a balloon were sent here yesterday by army air transport in the wake of reports that it was a flying disk.

But the general said the ob-jects were the crushed remains of a ray wind target used to determine the direction and velocity of winds at high altitudes.

Warrant Officer Irving Newton. forecaster at the army air forces weather station here, said, "we use them because they go much higher than the eye can see."

The weather balloon was found several days ago Bear the center of New Mexico by Rancher W. W. Brazel. He said he didn't think much about it until he went into Chrona, N. M., last Saturday and

cessions-a 44 1/2 cent basic hourly wage increase, an eight instead of a nine-hour work-day. and a 10-cent instead of a nickel a ton levy for the UMW welfare fund-the contract points a loaded gun right at the Southern MITOUP.

This is the next-to-last clause which provides that every signer nerees to meet in a national conference before the contract ex-

pires next June 30.

Thus, any Southern operator who signs obligates himself to coloperator laborate with the rest of the industry in next year's bargaining. instead of holding aloof as the Southern association has done since its split with Northern operators last December.

If the Southerners fall to participate in such a meeting the clause implies, they will find themselves faced with this year's situation all over again—in other words, invited to sign a "nationcontract which they had no part in negotiating.

Decorated Veteran

Records Discharge

Col. Fred G. Rowell, 102 South Kentucky, holder of the Italian Cross for Military Valor, the Legion of Merit award and Silver star, yesterday added his name to the discharge roster at the office of County Clerk George Miller.

Rowell was discharged at The Pentagon, Washington, D. C., Dec. 20, 1946. He entered the service in this city, Dec. 23, 1940. He served as a commander of a tank destroyer unit, intelligence staff officer and intelligence security officer in Tunisia, Rome-Arno. North Appenines and Po valley. Other awards received are, Bronze star, European - African-Middle Eastern ribbons with four bronze American Defense, American Campaign ribbons and the Victory medal,

CLEUCHICE CON RELEASE, MIST TEHEWAY OF States lend-jease before fall might formation from the officer than rict Attorney W. T. Scobe necessary to save Britain from States lend-jease before fall might unproductive poverty,

"We cannot indefinitely go on importing what we cannot pay for," Deputy Prime Minister Herbert Morrison said last night in house of commons economic de-bate. To bring buying down to ability to pay, he declared, Britain would have to cut imports 25 per cent and make "great adjustments" in production and standard of living.

"The only remedy x x x," he said, "lies in devising some means whereby billions of dollars worth of North and South American production could be transferred across the Atlantic without the necessity for immediate payment in the form of an equal and op-posite flow of European goods."

Observers noted the similarity between this proposal and war-

time lend-lease.

Of London's morning papers, only the ruling labor party's Daily Herald refrained from criticizing government economic policy. The Communist Daily Worker said the policy "appears to be to drift un-til the Americans come over with

s form of lend-lease."

Britain now is running into debt at the rate of 450,000,000 pounds about \$1,800,000,000 yearly pay for food for her people, still on thin rations, and raw materials for her industry, slowly recuperating from the war. If she keeps on drawing at the current rate on her \$3,750,000,000 U. S. credit, it will be gone by the end of pext winter.

State George C. Marshall by which the U. S. would help European countries provided they organized for economic recovery. This offer has resulted in a British-Prench call for a 24-nation conference scheduled to begin in

Paris Saturday.

The deputy prime minister did say, however, that Europe's nations "must agree on methods to help themselves" and that other-wise it would not be "reasonable to expect the full cooperation of the United States and other countries from whom the bulk of the assistance x x x must be drawn.

Donate Freely to Aid Legion Juniors

Business and professional men and the labor movement are behind the American Legion base-ball club in their trip to the state tournament at Clovis the last week of this month, Max Cabber, publicity chairman for the Charles M. deBremond post, announced today.

A donation of a substantial sum of money toward the expense fund for the trip was given by the Pecos Valley Lumber Co. today. individual unions, affiliated with the central labor council, have notified Cabber that their contributions will be in acon. One of the bodies has already sent in a check and another donation has been given by Howard C. Buchley, city attorney.

sociated Press services a couple of hours earlier.

Included in the dozens of calls which came to him from all over the United States, and Mexico, were three from England, One was the interview by the official, while the other two were from London newspapers, excitement over the flying saucers having spread to that country as well as all over the United States.

Report of the Roswell saucer was first made to Wilcox by W. W. Brazel, who lives on the Foster ranch where remnants of the so-called saucer was found,

Moscow, meanwhile, In Soviet press made no mention today of the conference, which will open in Paris Saturday.

Associated Press Correspondent Larry Allen reported from Warsaw that Poland's foreign office probably would deliver late tonight notes to the British and French embassies, giving the Poles' cision on the invitation. He added there were indications that the Poles might accept with strong reservations.

In London, a British government spokesman said Foreign Secretary Ernest Bevin would attend the conference but would have most of the work of organizing European economic cooperation to government experts.

Find Nude Body of Strangled Woman In New York Hotel

New York, July 9, (#) — The ude body of a tall, blonde nude body of a tall, blonde woman whose identity was not immediately learned was found today in a West 57th street apartment, police said, with a bed sheet knotted about the throat and a blood-stained towel in the mouth,

A maid who discovered the body told police that the woman was known to her as Bessie K. Tru. Luggage bearing the initials "B. was found in the apartment

Police said the woman also was known as Sheila Mannering to other residents of the apartment house and had used at least one other name.

investigators Homicide they found a cigar butt in a smoking stand within the apart-

The maid, Alura Rayfield, said she entered the apartment at 9 a. m., saw a light in the bathroom, found a radio playing, and then discovered the body, sprawled on the bedroom floor.

The body was face up between win beds. Her features had been besten and an ambulance doctor who examined the body said she had been dead some time.

Deputy Chief Edward J. Mullins, in charge of West Side detectives, said one bed was not disturbed but that there Were brownish stains on the spread of the other bed and that a sheet from it apparently had been used in the strangulation.

loon, which he had placed under some brush.

Then Brazel hurried back to Roswell, where he reported his find

to the sheriff's office.

The sheriff called the Roswell air field and Maj. Jesse A. Marcel, 509th bomb group intelligence was assigned to the case.

Coi. William H. Blanchard, combomb manding officer of the group, reported the find to General Ramey and the object was flown immediately to the army air field here.

Ramey went on the air here last night to announce the New Mexico discovery was not a flying disk.

Newton said that when rigged up, the instrument "looks like a six-pointed star, is silvery in appearance and rises in the air like

In Roswell, the discovery set off

a flurry of excitement.

Sheriff George Wilcox's telephone lines were jammed. Three calls came from England, one of from The London Daily Mail he said.

A public relations officer here "and it'll probably stay right there." said the balloon was in his office

Newton who made the examination, said some 80 weather sta-tions in the U.S. were using that type of balloon and that it could have come from any of them.

He said he had sent up identical balloons during the invasion of Okinawa to determine ballistics information for heavy guns.
